

Western Australia

You have decided to move to Western Australia

Complete an Overseas Technical Skills Record (OSTR)

You are required to successfully complete the Australian Minimum Context Gap Training

Applicants are required to obtain a letter of approval to undergo the Gap Training and an Electrician's Provisional Licence from Building and Energy

Consists of core and elective competency standard units to provide the required training for the UEE30811 Cert III in Electrotechnology Electrician qualification

Training includes off-the-job training at an approved RTO

Also includes working under supervision of a licenced WA electrician

Also includes a Practical Assessment at the end of your training

12

A nominal time of up to 12 months is an estimate and may vary depending upon the applicant's on-the-job experience in Australia

After completing the above, you will be issued a Certificate of Attainment that is to be forwarded to the RTO

The RTO will then issue the applicant a Certificate III in Electrotechnology Electrician
